- **Severity/Priority:** Medium
- **Description:** Users receive an error message when trying to update profile information.  
**Steps to Reproduce:**
  1. Go to profile settings.
  2. Update any field and save.
- **Expected Behaviour:** Profile should update successfully.
- **Actual Behaviour:** An error message appears, "Profile update failed."

- **Environment:** Edge 94, Windows 10
- **Additional Notes:** Tried multiple fields; the issue persists.

#### 8. Bug Title: Profile Picture Upload Failure

- **Severity/Priority:** Medium
- **Description:** Users cannot upload a profile picture.  
**Steps to Reproduce:**
  1. Go to profile settings.
  2. Attempt to upload an image file.
- **Expected Behaviour:** Image should upload successfully.
- **Actual Behaviour:** An error message appears, "Upload failed."
- **Environment:** Firefox 112, macOS
- **Additional Notes:** Tested with multiple image formats.

#### 9. Bug Title: Inaccurate Price Display for Activities

- **Severity/Priority:** Medium
- **Description:** The displayed price for activities does not match the final booking price.  
**Steps to Reproduce:**
  1. Select an activity.
  2. Proceed to the booking page.
- **Expected Behaviour:** Price should match the displayed amount.
- **Actual Behaviour:** Final price is significantly higher than the displayed price.
- **Environment:** Chrome 116, macOS
- **Additional Notes:** Confirmed with the activity provider.

#### 10. Bug Title: Date Picker Malfunction

- **Severity/Priority:** Medium
- **Description:** The date picker for itinerary dates does not allow selection of certain dates.  
**Steps to Reproduce:**
  1. Go to the trip planning section.
  2. Click on the date picker.
- **Expected Behaviour:** User should be able to select any date within the range.
- **Actual Behaviour:** Certain dates are unselectable.
- **Environment:** Safari 15, iOS 14.4
- **Additional Notes:** Issue appears with dates that are too close to the current date.

#### 11. Bug Title: Registration Email Not Sent

- **Severity/Priority:** High
- **Description:** New users do not receive a registration confirmation email.  
**Steps to Reproduce:**
  1. Go to the registration page.

- 2. Fill in user details and submit.
- **Expected Behaviour:** User receives a confirmation email to verify the account.
- **Actual Behaviour:** No email is received after registration.
- **Environment:** Chrome 116, Windows 10
- **Additional Notes:** Checked spam folder; no email found.

#### 12. Bug Title: Missing Destination Images

- **Severity/Priority:** Low
- **Description:** Some destination pages do not display images.  
**Steps to Reproduce:**
  1. Navigate to the destination overview page for [Destination Name].
  2. Observe the image section.
- **Expected Behaviour:** Destination images should load correctly.
- **Actual Behaviour:** The image section is blank, and a broken image icon appears.
- **Environment:** Edge 94, Windows 10
- **Additional Notes:** Issue appears sporadically for some destinations but not others.

#### 13. Bug Title: Unable to Save Itinerary

- **Severity/Priority:** High
- **Description:** Users cannot save their created itineraries.  
**Steps to Reproduce:**
  1. Log in to the application.
  2. Navigate to the trip planning section.
  3. Add destinations and activities to the itinerary.
  4. Click on "Save Itinerary."
- **Expected Behaviour:** Itinerary should save successfully with a confirmation message.
- **Actual Behaviour:** The application displays an error message and does not save the itinerary.
- **Environment:** Chrome 116, Windows 10
- **Additional Notes:** Error message states, "Unable to save your itinerary. Please try again."

#### 14. Bug Title: Currency Converter Not Updating

- **Severity/Priority:** Medium
- **Description:** The currency converter does not reflect the latest exchange rates.  
**Steps to Reproduce:**
  1. Go to the Currency Converter tool.
  2. Input a currency amount to convert.
  3. Compare the converted amount with an external exchange rate source.
- **Expected Behaviour:** The converted amount should match the current exchange rate.
- **Actual Behaviour:** The conversion amount is outdated by several days.
- **Environment:** Firefox 112, macOS

- **Additional Notes:** Rates seem to be static and not refreshing.

#### 15. Bug Title: Activity Filter Not Working

- **Severity/Priority:** Medium
- **Description:** The filters for activities do not function correctly.  
**Steps to Reproduce:**
  1. Navigate to the Activity Discovery section.
  2. Apply filters (e.g., "Adventure," "Sightseeing").
- **Expected Behaviour:** Only relevant activities should be displayed.
- **Actual Behaviour:** All activities are still shown regardless of selected filters.
- **Environment:** Edge 94, Windows 10
- **Additional Notes:** Filters seem to be ignored.

#### 16. Bug Title: Incorrect Weather Data Displayed

- **Severity/Priority:** Medium
- **Description:** Weather data does not match the current conditions for certain destinations.  
**Steps to Reproduce:**
  1. Search for a destination with known current weather conditions.
  2. Compare the displayed weather data with a reliable weather source.
- **Expected Behaviour:** Weather information should be accurate and up-to-date.
- **Actual Behaviour:** Incorrect weather information is displayed (e.g., sunny instead of rainy).
- **Environment:** Chrome 116, Windows 10
- **Additional Notes:** Issue occurs intermittently.

#### 17. Bug Title: Missing Booking History

- **Severity/Priority:** Medium
- **Description:** Users cannot access their booking history.  
**Steps to Reproduce:**
  1. Log in and go to the dashboard.
  2. Click on "Booking History."
- **Expected Behaviour:** Booking history should be displayed.
- **Actual Behaviour:** The section appears empty.
- **Environment:** Edge 94, Windows 10
- **Additional Notes:** Bookings were made successfully.

#### 18. Bug Title: Unresponsive Map Feature

- **Severity/Priority:** High
- **Description:** The interactive map feature does not respond to user actions.  
**Steps to Reproduce:**
  1. Navigate to the interactive maps section.

2. Attempt to zoom or pan.
- **Expected Behaviour:** Map should respond to user interactions.
- **Actual Behaviour:** The map remains static and unresponsive.
- **Environment:** Chrome 116, Android 11
- **Additional Notes:** Issue occurs on both mobile and desktop versions.

**19. Bug Title:** Booking Confirmation Page Not Accessible

- **Severity/Priority:** High
- **Description:** Users cannot access the booking confirmation page after completing a booking.
- **Steps to Reproduce:**
  1. Complete the booking process for an accommodation.
  2. Attempt to view the confirmation page.
- **Expected Behaviour:** User should see a confirmation page with booking details.
- **Actual Behaviour:** User receives a 404 error page.
- **Environment:** Firefox 112, Linux

**20. Bug Title:** Incomplete Trip Summary on Dashboard

- **Severity/Priority:** Medium
- **Description:** The trip summary on the user dashboard is missing details.
- **Steps to Reproduce:**
  1. Create a trip and add destinations and activities.
  2. Check the summary on the dashboard.
- **Expected Behaviour:** Summary should include all planned details (destinations, activities, accommodations).
- **Actual Behaviour:** Some activities or destinations are not listed.
- **Environment:** Chrome 116, Windows 10
- **Additional Notes:** Issue occurs randomly with different trips.
